

Product Information

HIGH FOAM-ADD

PURPOSE

- Foam additive for cleaning solutions
- Ware wash

FEATURES/BENEFITS

- Versatile – can be used in acid and alkaline solutions
- Versatile – also used as an excellent near neutral manual cleaner and utensil cleaner
- Economical – effective at low volumes

DESCRIPTION

HIGH FOAM-ADD is a blend of liquid surfactants designed for use as a foam additive to solutions of both alkaline or acidic cleaning materials. HIGH FOAM-ADD will produce stable, copious foam solutions when applied with air operated foam cleaning devices. In combination with concentrated cleaning solutions, HIGH FOAM-ADD will effectively remove heavy grease and soil deposits from steel and stainless steel food processing equipment. HIGH FOAM-ADD is also effective for use as a near neutral manual utensil cleaner.

USAGE DIRECTIONS

- As a foam additive: use ½ to 1 ounce of HIGH FOAM-ADD for each gallon of cleaning solution
- As a manual cleaner: use ½ ounce per gallon of warm water
- For specific use recommendations, or answers to any cleaning or sanitation questions you may have, contact us at 1-800-248-8515.
