

TECHNICAL DATA SHEET

CONADE LIQUID CONVEYOR LUBE

DESCRIPTION

CONADE is a soap-based, high-dilution conveyor lubricant that offers the highest level of container mobility, unique acid soil resistance, and superior cleaning capabilities for bottle and can conveyors.

- Superior lubricity and cleaning characteristics – excellent container mobility, keeps chains clean
- Unique soap based formula compatible with low pH soils and spills – not affected by beer spillage/contact
- Economical – performs at extremely lean dilutions
- Environmentally friendly – phosphate-free, pH balanced, biodegradable
- Mild pH formula – will not damage containers or labels

DIRECTIONS

- CONADE can be economically proportioned through most conventional proportioning systems, typically at ratios of 1:400 or leaner on tabletop conveyors, and at 1:250 on high-speed can transfers and seamers
- For specific use recommendations or answers to any cleaning or sanitation questions you may have, contact us at (800) 248-8515, or send us an email at info@acechem.com.

PROPERTIES

Form	liquid
Color	amber
Odor	soap
Density	1.04
pH of a 1% solution	9
Foaming	Moderate
Recommended use dilution	1:100 – 1:400

Special considerations and notes:

Always observe label statements and follow the information contained in our Safety Data Sheets (SDS).
