

# TECHNICAL DATA SHEET

## OMNI-LUBE SYNTHETIC CONVEYOR LUBE

### DESCRIPTION

OMNI-LUE is a synthetic, high-dilution conveyor lubricant that offers excellent mobility, hard water tolerance, acid soil resistance, and cleaning for bottle and can conveyors.

- Not affected by water hardness – no water softener needed, crystal clear in hard water
- Superior lubricity and cleaning characteristics – excellent container mobility, keeps chains clean
- Compatible with low pH soils and spills – not affected by beer spillage/contact
- Economical – performs at extremely lean dilutions
- Economical – eliminates the cost and hassle of providing soft water
- Mild pH formula – will not damage containers or labels
- Contains control agents – will not promote bio-growth on chains

### DIRECTIONS

- OMNI-LUBE can be economically proportioned through most conventional proportioning systems, typically at ratios of 1 part OMNI-LUBE to 200 parts water up to 1:600.
- For specific use recommendations or answers to any cleaning or sanitation questions you may have, contact us at (800) 248-8515, or send us an email at [info@acechem.com](mailto:info@acechem.com).

### PROPERTIES

Form .....	liquid
Color .....	yellow
Odor .....	slight
Density .....	1.02
pH of a 1% solution .....	9
Foaming .....	Moderate
Recommended use dilution .....	1:200 – 1:600

#### Special considerations and notes:

Always observe label statements and follow the information contained in our Safety Data Sheets (SDS).

The information contained herein is to our knowledge, true and accurate. Because conditions of use are beyond our control, we make no warranty or representation expressed or implied, except that the products discussed herein conform to the chemical descriptions shown on their labels. Nothing contained herein should be construed as permission or recommendation to infringe any patent. No agent, representative, or employee of this company is authorized to vary any items of the notice.
