

COMPLETE ONE-STEP CIP-RECIRCULATION CLEANER

DESCRIPTION

COMPLETE is a high performance, heavy duty alkaline CIP/recirculation cleaner containing a proprietary blend of detergents/surfactants and water conditioning agents designed to remove tenacious soils and mineral scales, while leaving stainless steel surfaces bright and shiny. COMPLETE combines the caustic and acid CIP cycles into one single step, eliminating the need for a subsequent acid wash and rinse. Using COMPLETE minimizes the time needed for CIP cleaning, freeing up additional processing time while also reducing water usage and related waste water/effluent.

- Eliminates the need for an acid wash or rinse
- Reduces cleaning time
- Reduces water/ hot water usage
- Reduces effluent
- Penetrates and removes tenacious soils
- Removes and prevents mineral scale deposits
- Controls hard water conditions throughout the pH range

DIRECTIONS

- For cold processing equipment, use 1 to 4 ounces COMPLETE to each gallon of hot water (dependent on soil load).
- For hot processing equipment, use 1 to 6 ounces of COMPLETE to each gallon of hot water. Dilutions will vary depending on the soil type and load.
- For specific use recommendations or answers to any cleaning or sanitation questions you may have, contact us at (800) 248-8515, or send us an email at info@acechem.com.

PROPERTIES

Form	Clear liquid
Color	Colorless
Odor	Slight
Density	1.28
pH of a 1% solution	> 12
Foaming	Low

Special considerations and notes: Avoid soft metals.
